

Sand

SAND – QUAIL HOLLOW MULTI-PURPOSE WASHED SAND

Quail Hollow Multi-Purpose Washed Sand is a processed sand. It is excellent for all washed sand applications, including bedding and joint filling for mortarless brick projects, small concrete projects where a smooth concrete texture is required, and recreational applications like sand boxes and volleyball courts. Multi-Purpose Washed Sand has a light beige color and is produced daily.

Quail Hollow Quarry is located in Felton, California, in the Santa Cruz Mountains. Extensive outcrops of Santa Margarita Sandstone characterize the Quail Hollow site. This formation consists of thickly bedded sequences of sandy gravel, coarse sand, fine to medium sand, very fine sand, and silt. In the Quail Hollow deposit, much of the sand is very high quality and contains secondary minerals that result in an ideal glass sand formulation. Raw material color varies from a light beige-gray to beige-white.

QUAIL HOLLOW MULTI-PURPOSE WASHED SAND

SIEVE ANALYSIS

US MESH	MM / UM	QUAIL HOLLOW GRADING
#4	4.75 mm	100
#8	2.36 mm	100
