

# River Rock

River Rock is a natural rounded stone, with distinctive smoothness and colors. Centuries of moving glacial waters and shifting streambeds created this beautiful rock. Classic terrigenous sedimentary rocks consist of rock and mineral grains, or clasts, of varying size, ranging from clay-silt and sand up to pebbles and cobbles.

These clasts were transported by gravity, mudflows, or running water, and eventually deposited in various settings in desert dunes, creek beds, streams and continental shelves.

The term is also commonly used to describe paving stones, usually of granite composition.

River Rock edging materials include ashlar and small building stones.

## RIVER ROCK – PIXIE PEBBLE & PIXIE COBBLE

**Pixie Pebbles** and **Pixie Cobbles** are from Montana. They can be used as decorative edging for pathways, borders, ponds and landscaping. They can also be used for stone veneer on walls, in fireplaces and hearths, and for pathways and exposed aggregate. The rocks are very smooth and deep in color. The colors are a mixture of green, pink, and purple hues. Pixie Pebbles come in  $\frac{3}{8}$ " gravel, and Pixie Cobbles come in 8" – 12" and double head size. The gravel is sold in bulk, the cobbles are in palletized baskets, and both are sold by the ton.

## PIXIE PEBBLE & PIXIE COBBLE

### AVAILABLE SIZES

DESCRIPTION	THICKNESS	COVERAGE AREA
Pixie Pebble	$\frac{3}{8}$ " Gravel	120 sf / ton @ 2"
Pixie Cobble	6" – 12"	40 – 50 sf / ton
Pixie Cobble	Double Head Size	30 – 40 sf / ton
