JANUARY 16, 2008

Contractor's Expo

Embassy Suites Monterey Bay – Seaside
1441 Canyon Del Rey
Seaside, CA 93955

At the Graniterock Contractor's Expo, contractors hear guest speakers who address issues, questions and situations they face on the job everyday. Contractors and guests are hosted to a continental breakfast, four breakout periods that allow for selected seminars on many varied and interesting topics including concrete, color, admixtures, pavers, estimating, pre-liens, retaining walls, natural stone, and much, much more. A well-known and dynamic keynote speaker will be enjoyed by all.

Please RSVP to Keith Severson at 831.768.2063 or kseverson@graniterock.com.

featured project

MONTEREY PENINSULA NATURAL STONE DESIGN CENTER

Work commenced January 2008 on the new natural stone design center adjacent to the Monterey Peninsula Building Materials branch in Seaside.

The plan for 2008 is to build 12 to 15 exterior vignettes. Each vignette is to be crafted by local mason customers of Graniterock and will feature various applications of stone and stone veneer.

The first completed vignette was a 300 square foot pond-less water feature. The second completed vignette was a fire pit next to the water feature. A gazebo and infinity edge spa will complete this section of vignettes. The gazebo and spa are currently under construction with a completion goal of July 2008.

In addition to the above, work is currently taking place on 3 other vignettes with the goal of completion in

early August 2008. One of the vignettes is a functioning barbeque. Another one is a functioning wood burning pizza oven. The third vignette is a barbeque and outdoor fireplace combination.

The remainder of the vignettes for 2008 have recently been permitted. Work will begin on those in mid July 2008 with an estimated completion goal of August thorough September 2008.

The final touches in 2008 will include a paving stone walk way and the associated landscaping that will tie the completed vignettes together in a customer friendly configuration.

featured product: Delta Stone Products

Delta Stone Products, a company founded by masons to handle their own cut stone needs, has become the premier fabricator of natural stone in the western United States. With the largest fabrication facility, inventory and the most comprehensive distribution network in the west, we are able to provide superior quality products and outstanding customer service. In addition to stocking many standard natural stone

products which are available for immediate shipping, we are also able to accommodate custom stone cutting requests. When it comes to natural stone ... Natural Thin Veneer, full thickness veneers, cap, fireplaces, mantels, hearths, profiled window surrounds, door surrounds, lintels, keystones, columns and balusters... you can count on Delta Stone Products.

new products: Aquascape, Mason-Lite

AQUASCAPE

Graniterock Building Materials in Seaside is pleased to announce that Aquascape pond products and accessories are now IN STOCK. Aquascape has long been the leader in the water gardening industry (A) and continues to be, with an all-natural philosophy that places us ahead of the competition. The ecosystem pond philosophy is present in thousands of backyards (B) across North America. Photos courtesy of www.aquascapeinc.com.

THE MASON-LITE SERIES

Mason-Lite is a uniquely designed lightweight masonry fireplace system (C) that is affordable, easy to handle, and consistent in quality. Photo courtesy of www.mason-lite.com.
