Cap: **Bluestone Tumbled**

## BBQ VIGNETTE COMPLETE

**Chief Cliff Tumbled:** The McGregor Lake quarry produces a highly attractive stone consisting of golds, browns, and grey tones. Exciting dendrite fern patterns lend character and personality to this stone. Tumbling Chief Cliff brings out the inner beauty of the stone, with rounded off edges and the interior grays exposed a sense of century old cobbles is created.

**Aromas Blend:** This blend of beautiful browns and grays mixed with some golds, creates a rich and colorful blend that lends itself to many different types of architecture. This special blend created by your stone professionals at Graniterock Design Center is sure to excite your customers for years to come.
