

Graniterock®

DESIGN VILLAGE

1755 DEL MONTE BOULEVARD • SEASIDE, CA

what is in the design village?

The Graniterock Design Village on the Monterey Peninsula showcases a magnificent collection of visually stunning uses of natural stone. Imagine yourself, your friends, and your family immersed in an outdoor paradise of your own creation enjoying the elements of water, fire, air, and earth. Picture a gathering area in your home with a Barbeque Island as a central feature, or you and friends soothing away the cares of the day in a beautifully stone clad Infinity Spa. Perhaps your backyard needs a Gazebo to complete the ambience you desire for entertaining your guests, or you have the perfect place for a rustic stone Fire Pit just right for roasting marshmallows on those long summer nights with the kids.

Walk through The Design Village and gather inspiration for your own home. Graniterock has the tools, materials, and knowledge available for you to create the backyard of your dreams in just weeks. Experience the ageless elegance of natural stone—both inside and out—in vignettes created by renowned local masons—From outdoor living areas, walkways and water features to fireplaces, kitchens and family rooms.

Please peruse this brochure to learn more about the vignettes you will see at the Design Village. We hope to see you in person at the Design Village, and please bring any questions you may have-- a friendly Graniterock Person will be happy to answer them for you. When you find a product that inspires you, feel free to contact the materials experts at Graniterock. We will work with you and professional tradespeople to install your materials and fulfill your vision of the home of your dreams.

The Design Centers are available to homeowners, designers, architects and contractors. Visit us at the Graniterock Design Village in the Monterey Peninsula at 1755 Del Monte Boulevard in Seaside, or in Cupertino at 1505 South De Anza Boulevard or contact your nearest Graniterock Branch location for assistance in making your dream project come to life.

For more than a century, Graniterock has been providing the construction industry with quality materials and products: the keys to ensuring a perfect job, every time. Graniterock People say "Yes, We Will!" when asked to meet your special product and service needs.
